

To: Sue Bailey, MD, President, Texas Medical Association  
401 West 15th Street, Austin, Texas 78701  
Fax: (512) 370-1630

Dr. Bailey:

**I am a *customer* (patient) of one of your members.**

**I strenuously object** to the Texas Medical Association's  
(TMA's) opposition to the Texas Complementary and  
Alternative Health Care Services Act, SB 1084/HB 1716  
on the basis of "patient safety"!!!

**I decide what type of health care I consider safe and  
choose to access, not you or your members.**  
**It is MY body, not yours!**

**Physicians trained only in pharmaceutical, surgical and  
radiological medicine do NOT possess the "education,  
training and skills" to pass judgment on the safety of  
my health care choices.**

**I and many other Texans have contacted our elected  
officials, expressed our displeasure at the TMA's position,  
and informed them that we have directly contacted you.**

Dr. Bailey, do the right thing for your members and their  
*customers*. **Withdraw the TMA's opposition to SB  
1084/HB 1716 NOW!**

---
